📍 Wolomin, Poland

📅 05/21/1990

### 👤 PROFILE

I am **Senior Full-Stack Developer** specializing in web-based development, including eCommerce sites and fully responsive web platforms. I am skilled in **JavaScript, Python, Redux, Git, Node.js**, and **React**. I have 10 years of experience building beautiful and robust websites and web apps for startups and enterprise-level organizations like **Cisco, Ascential**, and **SHL**. I am passionate about designing and engineering optimal digital solutions that offer a great user experience.

### 🎓 EDUCATION

#### Master's Degree in Computer Science

Carleton University 📄

2012 – 2014 | Ottawa, Canada

#### Bachelor's Degree in Computer Science

Carleton University 📄

2008 – 2012 | Ottawa, Canada

### 🧠 SKILLS

#### Languages

HTML, CSS, JavaScript, TypeScript, Java, Go, Python, C#, PHP, Rust, Swift, Kotlin, Scala, R

#### Libraries/APIs

React, Angular, Next.js, Vue.js, Axios, Redux, Express.js, GraphQL, OpenCV, TensorFlow

#### Frameworks

Ndое.js, Laravel, Django, .NET, Spring Boot, Symfony, Flask, Ruby on Rails, ASP.NET Core

#### Databases

MySQL, Oracle, MongoDB, SQLite, CouchDB, PostgreSQL, AWS S3, Elasticsearch, Neo4j

#### Platforms

AWS, GCP, Microsoft Azure, Firebase, Docker, WordPress, Shopify, Magento, Heroku, Linux, Windows, MacOS, Apple, Drupal, Webflow

#### Other

API Integration, Artificial Intelligence

### 👛 PROFESSIONAL EXPERIENCE

#### Neuralwave

Senior Full-Stack Developer

04/2019 – 02/2023 | Atlanta, USA

- Developed and maintained full-stack applications, utilizing modern technologies and frameworks to deliver robust and user-friendly solutions.
- Collaborated with cross-functional teams to gather requirements, design system architecture, and implement scalable and efficient solutions.
- Integrated third-party APIs and services, ensuring seamless data flow and enhancing the functionality of web applications.
- Conducted code reviews, implemented best practices, and mentored junior developers to improve code quality and foster a collaborative development environment.

#### Essential Designs

Back-end Java Developer

06/2016 – 03/2019 | Vancouver, Canada

- Created a search system for finding branches and ATMs filtered by various criteria, including a nearby feature.
- Wrote unit tests and integration tests using JUnit and Cucumber.
- Implemented performance optimizations by introducing lat/long caching on top of a Geo Time Zone API.
- Ensured that all of the REST APIs adhered to JSON API standards.
- Implemented the front end using React and developed components from scratch.

#### iQlance Solution

Junior Full-Stack Developer

08/2014 – 05/2016 | Manitoba, Canada

- Developed an element with an innovative UI using React (and hooks) to build a custom virtual (windowed) list that efficiently renders lists with tens of thousands of rows, a specialized rich text editor, and various widgets.
- Developed a Django (Python) web application for a company that works with insurance companies and radiologists.
- Worked on chat features for a financial guidance app through an integration with the Salesforce Chat SDK and MessageKit.
